

## **1A Supplementary Brief Trent Radio CFFF-FM 11 March 2005**

Re: Application for a Technical Amendment to a Broadcasting Licence  
for an Analogue Radio Programming Undertaking

a) CFFF-FM has shared space on the CHEX-TV tower since the station went on the air in 1984. The old tower, was built in 1959, and has recently been dismantled and replaced with a new and slightly taller tower, about 600' to the south.

b) CHEX-TV allowed CFFF to use the old tower at no charge, and this arrangement will continue with the new tower.

c) This application is being made pursuant to moving our transmission equipment to the new tower site. Also proposed is modest power increase from Class A1 to Class A. This will allow the CFFF-FM provide a better signal to serve Peterborough and the surrounding area.
